\$800 |
|---|------------------|

Comprehensive asset protection plans are primarily for **medical doctors, osteopathic doctors, podiatrists, chiropractors, dentists, builders and contractors, residential and commercial real estate investors, lawyers, certified public accountants, and other professionals who are at high risk for being sued.*

Comprehensive asset protection plans are also appropriate for clients who simply want to structure their estate plan to include effective asset protection tools. You should know that a standard revocable living trust provides **NO asset protection, unlike the above comprehensive asset protection plans.*
